

AUG 12
1962

Dear Jack,

The 8 August working committee meeting held here on maps and chart devices was most fruitful. We appreciate [redacted] assistance in the formulation of the operational requirement.

STAT

[redacted] will brief you on the necessary work to be accomplished to develop the devices we feel necessary in this area, i.e., (1) 35MM display in viewfinder, (2) emergency heading device.

STAT

We would appreciate any comments you may have on the above.

Regards,

John Parangosky
